WALDORF-ASTORIA

MARCH 6, 1899

* The address of the evening was delivered by Dr. William M. Polk. For the benefit of our graduates we quote the concluding paragraphs, so valuable a tribute from the highest authority as appreciation of and encouragement for nurses.

"Go back with me for thirty years, and enter the wards of any hospital, Bellevue, for instance, whose name you and I so proudly bear,— enter a surgical ward, and viewed, in the light of what we see to-day, one might think he stood in a pest-house. This applied to every surgical ward in every hospital. Pyæmia, septicæmia, known to the laity as blood-poisoning, was everywhere. All felt there were injuries which they could not heal, operations they dared not perform ; a mysterious danger, which could not be averted or controlled, lurked in the simplest operation, and any one who dared enter the great serous cavities, was viewed with apprehension rather than approbation. Let us enter the same hospital to-day. What has become of that lurking, mysterious danger, blood-poisoning? Some say Pasteur, Cohn, and Lister overcame it, but that is as if you said Stephenson devised the triple-expansion steam-engine ; they showed the way to its destruction, but through you it was destroyed.

"The trained nurse is the smooth, well-rounded stone which crushed the brain of that Goliath. See now the cheerfulness, the safety of those same wards. How truly enviable the tasks of surgery to-day, because, at last, responsibility for success or failure is direct and unquestioned, and it depends wholly on the surgeon, and on you, his strong right arm !"

TWENTY-SEVENTH ANNUAL REPORT.

THE closing year of the last century was an eventful one in the history of the Bellevue School, as it marked the rise and progress of a quarter of a century of trained nursing in this country. In order that it should be celebrated properly, in January last the Managers called a meeting of the superintendents of all the training schools in Greater New York, and proposed that they should unite with the parent School at Bellevue Hospital in a celebration to be held at the Waldorf-Astoria early in March. This proposition met with the most cordial response, and it was decided that the superintendents with their pupils and graduates should attend in the uniforms of their various schools.

Twenty-two years ago, Bishop Henry C. Potter, who was then Rector of Grace Church in New York, dedicated the Nurses' Home in East 26th Street, and Mr. George William Warren, with the choir in St. Thomas's Church, assisted in the service. Happily these tried friends are still with us, and Bishop Potter kindly agreed to preside over the meeting in the great hall of the Waldorf-Astoria on the evening of the 6th of March last. On both occasions the *Te Deum* was sung—twenty-two years ago, as the voice of faith and hope; last year, as the voice of praise and thanksgiving. On the floor of the hall, twenty schools were represented by nine hundred nurses in their uniforms. Some one compared them to a bed of white lilies.

As the Managers looked down on this great assemblage of intelligent, thoughtful women, and remembered what it meant of help and comfort for the sick and suffering—as they realized that such a company of trained women could be gathered together in most of the large cities of the United States, fewer in number, but strong in the earnest purpose of their lives—their thought was, "This is the Lord's doing, and it is marvellous in our eyes."

With the multiplication of training schools through the country, there seemed danger that the ranks of the profession of nursing would be overcrowded, but during the war with Spain the services

of our graduates were constantly demanded in military and naval hospitals, and that demand still continues. Five of our graduates are doing good work in the military hospitals in Manila, and several are in Porto Rico and Cuba. One of our graduates, Miss O'Donnell, has the honor of establishing the first training school for nurses in Cuba, in the hospital of Our Lady of Mercies (this is the Government hospital in Havana). Her pupils are Spanish Sisters, and some Cuban young women. She writes that she is much interested in her new responsibilities. Until she acquires the Spanish language she has a Cuban boy who speaks English to interpret for her.

Two of our graduates are in South Africa. One has charge of the nurses who went out with the Canadian regiment, and one is on the *Maine*.

The graduating class had in the preceding winter forty-one pupils enrolled, but eleven were found unsuitable for the work during the months of probation; three were dropped during the first year, and five during the second year,—four for cause, and one because she was not equal to the duties and responsibilities of her position.

Forty-five entered the School for the class of 1900; thirteen left during the months of probation, and five were dropped during the year, leaving twenty-seven to graduate. These statistics show that careful selection is always necessary among those who seek to fit themselves for the duties of a nurse.

The Managers wish to impress upon applicants the importance of an absolutely honest certificate of health. No one with a tendency to consumption, rheumatism, nervousness, or flat-foot should attempt to enter Bellevue Hospital.

Courses of study and lectures are the same as last year. The Senior nurses have two classes of instruction and one lecture a week. The Junior nurses have two classes of instruction and one lesson in cooking for the sick every week.

Six lectures have been given by

Dr. Carlisle, on Diseases;

Dr. Garmony, on Surgery and Emergencies;

Dr. Robert Wylie, on Obstetrics;

Dr. Pulley, on Fluids of the Body and Bacteriology;

Miss Bannister, on Massage.

Special training has been given in the care of the insane. The cooking lessons have been given weekly at the New York Cooking School. A demonstration of the peptonizing of milk and other foods for the sick is given each year by Fairchild Brothers & Foster.

There were 698 calls for private nurses during the year. There were 30 applications for nurses to fill positions in hospitals as superintendents or as head nurses, of which the School was able to supply 16.

During the past year thirteen of the graduates have married, and three have died.

Several of the graduates have availed themselves of the opportunity to take a post-graduate course, thus keeping themselves in touch with the advance in surgery and medicine.

Through Mr. Northcote's generosity, the Edith Home was again opened during the months of July, August, and September. Nurses from sixteen training schools, and many teachers found rest and renewed strength in this delightful spot.

The Lazarus Pavilion has been occupied by several graduates who were ill, and the Mary Dewitt Cuyler fund has paid all expenses connected with it.

The Managers desire to thank Commissioner Kellar for the courtesy he has extended to them.

They also wish to acknowledge Warden O'Rourke's uniform kindness and consideration.

In closing our report for the year, we remember with sorrow the death of one of our number, Mrs. Henry Taylor, who for fourteen years took an especial interest in the Emergency Hospital, which was indebted for many comforts and conveniences to her thoughtful kindness.

VIRGINIA R. OSBORN,
Secretary.

REGULATIONS FOR TRAINING SCHOOL FOR NURSES.

THE Committee of the Training School for Nurses has made arrangements with the authorities of Bellevue Hospital for giving two years' training to women desirous of becoming professional nurses.

Those wishing to obtain this course of instruction must themselves apply to the Superintendent of the Training School, 426 East 26th Street, New York, either in person or by letter, upon whose approval they will be received into the School for two months on probation. The preferable age for candidates is from twenty-five to thirty-two years. The applicant should send, with answers to the paper of questions, a letter from a clergyman testifying to her good moral character, and from a physician stating that she is in sound health. Applicants are received at any time during the year when there is a vacancy. A good education is *indispensable* for a member of the School, but applicants are reminded that women of superior education and cultivation, when equally qualified as nurses, will be preferred to those who do not possess these advantages.

The Superintendent has full power to decide as to the fitness of applicants for the work, and the propriety of retaining or dismissing them. She can also, with the approval of the Committee, discharge them at any time in case of misconduct or inefficiency. During the months of probation the pupils are boarded and lodged at the expense of the School, but receive no other compensation. They are not expected to wear the uniform of the School, but must come provided with dresses of washing material, for use in the Hospital. All clothing must be plainly marked.

After the trial months, those who prove satisfactory will be accepted as pupil-nurses, after signing an agreement to remain two years in the Training School for Nurses, and to obey the rules of the School and Hospital.

If a nurse, *for reasons of her own*, leaves the School before the two years have expired, she is expected to refund to the School the money she has cost it.

The pupils will reside in the Home, and serve as assistants in the wards of Bellevue Hospital; the second year they will be expected to take charge of wards, or to perform any duty assigned them by the Superintendent.

The pay the first year is \$7.00 a month, for the second year, \$12.00 a month. The sum is allowed for the dress, text-books, and other expenses of the nurse, in connection with her work, *and is in no wise intended as wages*, it being considered that the education given is a full equivalent for her services. They are required, after the months of probation, when on duty, to wear the dress prescribed by the Institution, which is of blue and white seersucker, simply made, white apron and cap, linen collar and cuffs.

The day nurses are on duty from 8 A.M. to 8 P.M., with an hour off for dinner and additional time for exercise and rest. They are also often given an afternoon during the week, and have half of Sunday. A vacation is allowed.

As the Institution is unsectarian, there are no religious services connected with it, except evening prayers, and all nurses are expected to attend the place of worship they prefer once on Sunday.

COURSE OF TRAINING.

The instruction includes :

1. A good obstetrical service.
2. The dressing of blisters, burns, sores, and wounds : the application of fomentation, poultices, cups, and leeches.
3. The administration of enemata, and use of catheter.
4. The management of appliances for uterine complaints.
5. The best method of friction to the body and extremities.
6. The management of helpless patients ; making beds ; moving, changing, giving bath in bed ; and preventing and dressing bed-sores.

7. The practical care of the insane, and alcoholics.
8. Bandaging, making bandages and rollers, lining of splints.
9. The preparing, cooking, and serving of delicacies for the sick.

They will also be given instruction in the best practical methods of supplying fresh air, warming and ventilating sick-rooms in a proper manner, and are taught to take care of rooms and wards ; to keep all utensils perfectly clean and disinfected ; to make accurate observations and reports to the physicians of the state of the secretions, expectoration, pulse, skin, appetite, temperature of the body, intelligence — as delirium or stupor — breathing, sleep, condition of wounds, eruptions, formation of matter, effect of diet, or of stimulants, or of medicine ; and to learn the management of convalescents.

The teaching will be given by visiting and resident physicians and surgeons at the bedsides of the patients, and by the Superintendent, Assistant Superintendent, and head nurses. Lectures, recitations, and demonstrations will take place from time to time, and examinations at stated periods.

When the full term of two years is ended, the nurses thus trained can choose their own field of labor, whether in hospitals, in private families, or in district nursing among the poor. On leaving the School they will, after passing the final examination, each receive a diploma signed by the Examining Board and by a Committee of the Board of Managers.

As an appreciation of their services while in training, and as a mark of their esteem and regard, the Managers give a "gold badge" to those pupils who have conscientiously adhered to the rules of the School and Hospital, shown faithful devotion to duty, and an earnest desire to be a credit to the profession.

The Managers of the School wish it to be distinctly understood that they do not guarantee to take all who graduate on the Registry.

BELLEVUE REGISTRY FOR NURSES.

426 EAST 26TH ST.

Telephone No. 833—Madison Sq.

The Managers of the Training School have established a Registry for their graduates, where medical, surgical, and obstetrical nurses, and those competent to take charge of nervous and insane patients, can be obtained by applying either in person, by letter, telephone, or telegram, to the office of the Society, 426 East 26th Street. Telephone No. 833—Mad. Sq.

The terms for the registered nurses are, for obstetrical, nervous, surgical (major), contagious, and men, \$25.00 per week. Insane, and alcoholic, \$30.00 per week or \$5.00 per day.

Infectious and contagious cases include : Scarlet Fever, Measles, Typhoid Fever, Diphtheria, Erysipelas, Septicæmia, and Puerperal Fever.

If at a contagious case for less than a week, \$4.00 per day ; \$21.00 per week, or, \$3.00 per day for all ordinary cases, including minor surgery.

No extra charge to be made for attending to the body after death. If called in expressly for this duty, \$5.00.

A list of these nurses will be found on page 54.

1. The fee is \$10.00 a year, due January 1st.
2. Nurses are to keep the Superintendent informed of their place of residence, and when they are ready for a call, and *also when they have accepted a case* either obtained from the office or from any other source.
3. Nurses, while in attendance in the sick-room, are to wear the uniform, consisting of a cap, apron, and dress of washing material, unless the patient or family object, or the circumstances of the case render such a dress inappropriate.
4. Nurses are to report to the office when, from sickness or

any other cause, they are obliged to leave a patient who still needs the services of a nurse, so that their place can be supplied as soon as possible.

5. It is the duty of the nurse to take the care of the patient's room, if her time is not fully occupied by the patient ; and also to make herself acceptable to the family.

6. Before making an engagement a nurse should mention her terms, or if that is not practicable, then, as soon after as convenient, and when an engagement is once made she should consider herself bound to keep it, and not be induced to break her word in order to please a patient or to secure a more advantageous position.

In making obstetrical engagements it is urged on the graduates to be most particular as to date of engagement and terms, so that there be no misunderstanding later.

If any graduate of the School in charge of a case has proved unsatisfactory, the employer is requested to report the fact to the Superintendent.

The regulations for employers are the same as those generally used in registries for nurses :

1. Travelling expenses and washing are to be paid by the employers of nurses, unless some different arrangement has been made between them.

2. A meal should be provided for a nurse when she is required to be awake all night.

3. When it is necessary for a nurse to care for a very sick person for several nights in succession, she should be allowed not less than six hours' sleep during the days.

4. When taking entire charge of a nervous patient night and day, though a nurse may not lose her sleep, it is better for both patient and nurse that she have some time for exercise in the open air apart from the patient.

It is not expedient to multiply rules, as they are not all of general application, and many details must be regulated by the circumstances of the case. We only ask for the nurses the consideration and kindness due to those who contribute so much to the comfort and well-being of members of the family.
